

Dear Mr. Weissert:

Thank you for your letter of March 12, 1992.

I find the participation proposal of Mr. Franz Erhard Walther for Germany for the Istanbul Biennial to be a positive boost for our exhibition.

The only problem is that of space. We can not offer the 400m² needed for Mr. Walther's exhibition for two reasons: First, we do not have any extra space; second, all countries are participating with a maximum of 300m² including Turkey.

I would be very pleased if Germany's participation be limited to 300m².

Looking forward to hearing from you in this matter, I remain yours

Sincerely,
