

Dear Calin:

Never do business with a friend, especially or even if you are in the same business or even if that may have been the reason of acquaintance. I was in Holland last week, we are covered in Metropolis M. A photo of subREAL to assist the Biennial essay of Bart de Baere which is preceeded by your article on subREAL itself. I am sure you have a copy of that but I am sending you a xerox along with the recent articles on the Biennial. Another review is to appear in March or April Art in America. Anyway dear, if you have any thing on your side, let me know, my show in Holland went okey, Hale had a terrific piece and Kabakov's installation at the Stedelijk was great (even though I prefer the real thing), missed the Koons. It seems that I can not come to Bucarest this month. I know the project is being delayed but I am still low on energy and have to get myself together before I get into new projects. This has nothing to do with resting, but rather reading, looking and thinking. This is what I crave for. I will definitely come to Stuttgart for your show. Please let me immediately know when it opens, and what is the best time for me to come. If you have any Biennial coverage please send me that.

Warmest Hugs,

VASIF
