Dear Vasif Kortun,

I've received your images, thank you very much, but I had problems opening some of them: I could open only kortun.jpg and proje4l.jpg. Could you send the others in another format?

You were asking what kind of machines we use: I use PC, but the designer uses MAC, so... rather complicated...

Yes M'ARS is printed in b&w (except covers, of course)

Best regards,

Sabina Povsic

b&w
