Dear Vasif,

It is true I always follow Luisa, I must be mad. Do you think she will come with me to Helsinki? Of course not! I am trying to be a nice husband you know. Sometimes I fear I am too nice! Anyway, I already have some dates in February so for me the fall would really be better, late October for example. I do a show late September and have to focus on that as it will be built up during the time of the exhibition which means I will need to be there most of the time. Its called 'Making the Exhibition' and includes works of artists that focus on one particular aspect of making and exhibition.

What are the plans in Istanbul?

Yours,

Jens
