Hi Vasif,

Thanks for your mail.

First of all we really appreciate to learn that the exhibition is still well visited – we had expected that the last 2–3 weeks of the exhibition period would be somewhat quiet!

We have briefly discussed the possibility of taking the exhibition to Ankara or even Bodrum but it was shelved as we were concerned not to be able to get necessary funding. However, as the idea is not completely abandoned we should appreciate if you could accept that we pick-up the panels and keep them in our storage – in case we later on decides to make use of them we shall be ready to negotiate a fee to be paid to you in the range of USD 1.000,-. If you can accept this proposal we shall arrange to have the panels picked up early next week. Do you have solid transportation and storage boxes for the panels?

Photocopies of the press coverage in Denmark will be send.

With kind reference to our mail of June 28 please confirm that you have forwarded the CD-material to Søren, IKS.

Best regards  
Peter

Subject:

Dear Peter, it would be a pity to destroy all these nice panels we produced for the AJ exhibition. Do you not think that Ankara may be interested in them? It cost us around 3500 to produce it, half the cost of regular, and if an Ankara institution would take it, we could let those go for, say 1,000 plush shipping. Otherwise, they will be destroyed at the end of the day. Come to think of it, they could even visit universities with architectural faculties, in Izmir and Adana.

The show is to close in a few days, we are still getting good crowds

in the middle of the heat. I am really happy about this.

Would you kindly ask Nil to send us, if possible, photocopies of the press coverage in Denmark?

Warmest,

Vasif
