Hallo Vasif,
I mention the maquettes because I have an exact exchange about the design of the book with Esen and I think as well it is not easy to manage 150 photos I took out of my slide projection, if I give an example to deal with. But trust me a bit more and wait until you see it. As well it is done now so I send it as well.
Greetings
Erik

Dear Erik:

What we need from are only the scans. We do not need a maquette. The book is designed by Esen and not the artists. If you do not desire your images to be used as Esen and Ozge agree upon, you do not need to send them.

I have told you this several times already, and I do not understand why you are still mentioning maquettes.

Best,

Vasif
