**March 12, 18.30**

Artist Florian Zeyfang will present his exhibition work as well as his experience with different collective practices in a talk at Platform on 12th March at 6.30pm.

With his installations, Zeyfang addresses questions of the utopian and its representation, using low-tech animation and other video in settings of various materials. The political language of art and video has also been a centerpoint for his work with the artist group "Botschaft" - an artist/videomaker collective -, and other collaborative efforts like "a-clip".

Zeyfang lives in Berlin, and is currently working as an artist in residence in Istanbul. His recent solo shows include: *A Portrait A Design* (Berlin), *Fokussy (Meeting Fischinger)* (Oldenburg), *Complaintes* (Lüneburg), *4 D* (Havana) and *Appropriated Spaces* (Wolfsburg).
