

Hit & Run

Smart Project Space at Platform

23 June – 28 July

The second week of *Hit & Run* hosts three major art events taking place in Platform and also at the Darphane-i Amire building. **All lectures are streamed live on the website of SMART Project Space www.smartprojectspace.net** and documentation of the performances can be viewed after each event in Platform's gallery space.

A Long Year: Naz Erayda, Nadi Güler & Mustafa Kaplan

Thursday 1 July, 20:00 at Platform

Throughout 2002 and 2003, Mustafa, Naz and Nadi met, had tea and talked on a regular basis. They felt the need to share each other's thought processes and work. This desire to understand the other, created the necessity to give up their individual positions. And, this inevitably led to a state of 'being in between.'

These meetings, which at the beginning were not initiated with the aim of creating an end product, became a performance whereby three artists try to interpret the conflicts in their conversations, from an oral dimension to a physical one.

The Mirror and the Masque: Joanne Tatham & Tom O'Sullivan
