Dear Laurence Bonvin,

Following our discussions and ongoing interest in your work over the last year, we would very much like to invite you to participate in a two person exhibition with artist Juul Hondius to open in June 2007 at Platform Garanti Contemporary Art Center, Istanbul.

There is a growing interest in photography as a medium to be used by artists working in the field of contemporary art in Turkey and we would like to reflect this shift by hosting Platform's first ever photography exhibition. The concept is to focus on two distinctive, yet unusual approaches to photographing the urban make-up of Istanbul and within this context we would like to exhibit your series of photographs of gated residential communities.

I attach further information about Platform Garanti's activities as well as a budget outlining the support we are able to offer towards your participation in this exhibition.

We very much look forward to working with you.

With kind regards,

Vasif Kortun

Director, Platform Garanti Contemporary Art Center
