

Dear Jonathas,

We do hope that you are well. The count-down to the opening has already started and we are completing the last preparations.

We would like to inform you that the *O Peixe* will be shown at Køge Marina in a wooden pavilion (5m x 7m and 3.20 height) built specifically for the work. The inside of the pavilion was painted dark grey, and the work will be presented at a 4-meter-wide screen in a totally dark space with sound system and seating for the audience. We'll send you photographs when it is up and running.

The opening of the *Humming*s exhibition, our joint project will be held on the 14th of August at 3.30 pm at the Industrial Harbour of Køge. Below you can find the opening programme, which we will also send you in a separate mail so that you may share it with friends, colleagues and contributors.

We are happy that we are able to realize the *Humming*s exhibition and our opening gathering against all odds in the pandemic conditions. As a part of precautions, we only invited to the opening the artists who live in Denmark and the ones who have to come for the installation.

We thank you extensively for your precious contribution to the exhibition and hope to come together in better times.

Warm regards,

Ulrikke Neergaard and Fulya Erdemci
