Subject: Erik, still thinking

Hallo Vasif,
actually I am writing a e-mail at HÜO, I am still thinking about his
lecture and he is still sending me articles.
Besides that I thought as quick as he "used "us" in his lecture via
Video and the Istanbul earthquake rumor.
I like to think about an very interesting titel for our show in
september, which been coming out as well out of your talks we had
together the first night. Which is : picnic city.
Just a note because you havn`t told me a titel or an exact content.
What do you think.
I think it would be as well helpful to have a meeting with all
participants next week.
Greetings
Erik
until tuesday 10 o`clock.
