Dear Vasif,

this is fantastic, that we were able to reach you. I will pass on your address to Kathy Battista, who is doing the interviews with various directors and curators of museums in mostly Europe and some in Japan and USA, it is totally essential for us to involve you and include the information and the concept on the upcoming PROJE4L in Istanbul that you are initiating and running. So, I am hoping that you will be able to accept this, but Kathy will contact you shortly anyway.

Thank you again for your replay,

spela
