

8/15/16

J.A.M. Giesen
Consul General
The Kingdom of Netherlands
Istanbul

Dear Mr. Giesen:

It is with great anticipation that I am sending you our application seeking support for the educational activities of the Proje 4L. Enclosed, you will find the explanation of the project, a brief about the core group (ODA PROJESİ) that will administer the program, and of course, the budget!

The budget includes the start-up needs, Proje4L's contribution (not including any operating expenses), and our annual need.

If the annual need exceeds your allocations, I would be very pleased if you would consider a six month grant of 5,470 Euro that would give us the buffer to seek additional funds

As you will see, the budget is lean and the the goals we have set up for ourselves are lofty. Your support will set an example and provide the kind of leverage for me to expand the program in the very near future. I strongly believe that we can bring about some change and lead by example, even if at a micro level.

Sincerely,

Vasif Kortun
