Subject: See you in September

Dear Vasif,

I wonder how things are going with your projects in Istanbul? I have just returned my accreditations to the biennale office and definitely expect that this time I shall not miss the Istanbul Biennale (by the way, maybe you can recommend a hotel?).

I look very much forward to seeing you at that occasion and get a further look into the things you have been working with in the city. I surely hope that your projects are coming through in spite of the critical financial situation in Turkey and that they will be part of the experience of visiting Istanbul next September. Do you have any information on it yet that could be forwarded to me?

Best regards,  
Lars
