Dear Vasif

Just heard from Kutlug sounded so happy re the show with you! I am so pleased!! Sounded great.

Tell me more about this possibility of British something with the help fo BCouncil...Maybe we could work on this t'gether?

DO you know how I could get more info on the female photographer in your exhibition (opening show at time Biennial) who photographed semi mythical real situations - dancing lamb, slaughtering on a hill etc... She is the wife of another artist (sorry I havent got your catal iwht me jsut now). Could you put me in touch with her, I am considering her for 2003 prog? And its quite urgent.

Best wishes

Katya

Dear Katya, thanks you very much for the information, it really helps.

Next week I open Kutlug's WWW finally. We just took down Haluk Akakce's new piece at platform, it was amazing.

Let us please keep in touch, I have a green light from the BC to make something substantial in Istanbul with British artists of course for 2003.

Best

Vasif
