Hi Josh, the museum I am working on will be contemporary whatever that means, the exhibition area is 9000 sq.ft, in a total of 2 floors, we open in september 2001. Why don't you come here for the opening of the biennial? It is the third week of september. If there is a magazine you are involved with, I can pull some strings and have the foundation/biennial invite you, why not?
