Dear Jens, we will slot you for late October 2002. The guru of exhibition history will you become soon. Soon, my cover will be blown up in Istanbul, so better hurry, because the everyday is painful here, as everywhere I guess, a retirement plan would have helped, everyday I drift away from many of the things I like to do, the administration is a burden although that is what I have been doing at some respect for the last 8 years.

Vasif
