Dear Koen, I am finished with the final exhibitions of the season. So, please forgive me for not having heard from me sooner.

October would be great. Incidentally, I have been invited to give a talk at the Jan van Eyck in October as well. I am waiting to hear from them regarding the dates.

I like very much the idea of the discussion of Jan van Eyck and its position vis a vis the art academy and the university. Mind you that the so-called art schools here are still grappling with issues of beaux arts and bauhaus. Do you already have a title?

Best regards,

Vasif Kortun
